### Don't Jam the Trains

The federal controller of transport has repeated his appeal to the public to leave from the trains to stay off the trains during the Christmas rush. The cars will be crowded by men and women in uniform, some of whom have not had a Christmas in Canada for five years.

If no civilians at all got on the trains during this high pressure period, the service to men and women would be better than it is during travelling conditions. They will have less than that if the space is jammed by people who have less claim to it, and who will not cause could arrange to take their trips a few weeks later.

The outlook being what it is, no one need feel surprise if the controller clamps down on civilian travel. The trains are needed to keep people off the trains which are already filled with men and women in uniform.

### How Lucky We Are

A common note runs through the statements of men coming home on leave from overseas. They are amazed at the scale of living in Canada, the amount and variety of food, the personal and household conveniences which are available in the stores, the amount of buying that is going on. Even the complete absence of fear of being bombed which enables people to sleep soundly seems strange to them.

From this reaction upon Canadians who have been "over there," the stay-at-homes may gather a clearer and keener understanding of the kind of life people are enduring in Britain, France, Belgium, Holland, Germany, the Balkans—over practically the whole of western and central Europe in fact.

If these expressions of the returned men join our civilian complacency that will do us good, though it will be a small thing to do what we can to make more thankful than we otherwise could be that we live far from that continent of distress. We must be willing to do what we can in the way of sending relief to the sufferers; more ready to help the drive for aid; and complete victory, so that our "boys" can come home to stay.

### The New Judges

Mr. Justice Parlee, who succeeds the late Mr. Justice Tweedie on the bench of the Supreme Court of Alberta, is a long-time resident of Edmonton. He is a long-time resident of Edmonton. He is a long-time resident of Edmonton.

His Honor Judge McBride, who takes the place in the District Court left vacant by the retirement of Judge Mahaffy of the District Court, is also a long-time resident of Edmonton. He is a long-time resident of Edmonton. He is a long-time resident of Edmonton.

His Honor Judge Fraser has practiced law for some twenty years at Westlock, is a graduate of the University of Alberta, and is said to be the first member of the junior bar of the province to be given judicial honors.

Congratulations to these new judges will carry an expression of confidence that they are fitted to uphold the high traditions of the Alberta courts, and to administer justice in the spirit as well as the letter of the law.

### Teachers' Salaries

There will be almost universal public sympathy with the request of the Alberta Teachers' Association that the statutory minimum salary for teachers in this province be raised from \$800 to \$1,200 a year.

One argument favoring this increase is that other provinces, notably Saskatchewan, have recently raised their minimums. But this is by no means the chief reason for supporting the proposal.

The fact, and everybody knows it, is that even \$1,200 a year, or \$2,400 for that matter, is a most meagre and tragic minimum for the people who service teachers' needs in the community.

For of all the professions, teaching is easily the most vital. From his teachers the child acquires his first notions of citizenship, patriotism and, indeed, many of his slants on life itself. Thus, from the teacher flows the very spirit of democracy.

The teacher is the person upon whom the entire system of government, our social consciousness and our way of life swing.

Public enlightenment, of course, is the keystone of democracy. Our young people will function in a democracy in the precise degree to which they have acquired a sense of social and political responsibility.

It is, in truth, surely, that we began to understand that the units of our instructional

system are worth something more than \$1,200 a year.

Many people complain that educational costs already are high. They must be higher still. We must face that fact. Surely no money is more valuable than education.

And if democracy is worth fighting and dying for, it surely is worth paying for.

Stockholm has a report that somebody set fire to a castle where Hitler was staying. It may be doubted. There have been no reports of wholesale hangings in that community.

The Mayor of Halifax is mad, positively mad. He says it is a "lousy trick" to send a ship full of soldiers to the city. Crossed right through that city without allowing time for a civic demonstration of welcome. The disappointment of His Worship can be understood. But perhaps the men in question were more anxious to get home than they were to hear him make a speech?

While 1,100 U.S. bombers and fighters flew by guess and good luck through low clouds to blast the enemy spearhead thrusting into Belgium, 500 British bombers flew to Gdynia and attacked Nazi warships and port equipment. A total of 14,000 tons of explosives on enemy targets in Europe in 48 hours up to Monday evening. Rundstedt was lucky that weather conditions did not permit a real massing of Allied air power against his panzer divisions—how lucky these figures suggest.

Reports that Tokyo is being evacuated would sound more realistic if they were consistent. But the fact is that the city is being cleared out, and the next day the city will be a mass of rubble and scattered among smaller towns. The raiders should have got together and decided what kind of an evacuation they wanted. The subject is not likely to stop the superfluous raids on the place.

### Looking Backward

From The Bulletin Files

#### 1894: 50 Years Ago

The Hon. Mackenzie Bowell is probably the most generally acceptable member of the late ministry for the position of premier, and his selection by Lord Salisbury was a great triumph for him. He is an old man, over 70, and had been in public life for many years, during a great part of which time he has filled important cabinet positions. The most important of these was the customs, of which department he was the head for many years. His selection for the position of premier was a great triumph for him. ## Today's Sport Parade

By Jack Cuddy

NEW YORK, Dec. 21.—Giddy goddesses of the gridiron certainly cooked up a goofy coincidence when they arranged for John (Ox) Da Groat to be appointed head football coach at Holy Cross College on the same day that army's great eleven was proclaimed sports team of the year by a certain press association—not the BUP.

The fickle fates thus made a print companion of the team that stands out as currently college champion of the "T" formation, and the coach who looks as much like a headless chicken as he does a head. Men on copy desks must have found them strange "head" fellows.

Pilot Da Groat of the Crusaders at Worcester, Mass., is an inmate of the "T" as the ladies' choice of nerdy Boston. He is the guy who thought up and demonstrated the "submerged defense" to nullify effectiveness of the "T" attack.

GROWTH IS MENACED

THE additional success of Col. T. Earl Black's army team, in its second season of "T" play, unquestionably will stimulate widespread adoption of the lightning formation among colleges not now using it. This growth is menaced by Da Groat's modernized defense, which may end-stage it. This struggle between the "T" and Da Groat's brainiac schemes is to be the most interesting phase of football during the next few seasons.

Although the Holy Cross men have given the gridiron a new deal in defense, we have heard of no alphabetical appellation being used to designate it. Perhaps that's because of its brief existence. Da Groat, as acting head coach, unveiled it at Holy Cross early in the '44 season. It might

## 'Big Four' Football Returning To East Canada Next Fall

OTTAWA, Dec. 21.—(CP)—P. McCaffrey, manager of the Ottawa Football club, sponsors of the capital's Rough Riders, Thursday informed Ottawa Board of Control that "big four" football will return to eastern Canada next fall.

Mr. McCaffrey headed a delegation from the club asking for the restoration of rights and privileges regarding the use of Lansdowne Park, particularly preference on playing dates, scheduled exhibition and practice games. "We feel that the time now has come to prepare for operation again," he said.

He added that the big four's meeting was scheduled for Toronto Jan. 26, and that the four teams—the Ottawa, Hamilton, Montreal, Toronto and Ottawa—had already agreed to field teams for the 1945 schedule.

The delegates promised every cooperation to Ottawa Trolleys, Ontario Rugby Football Union which through president Dave Sprague applied Oct. 24 for the exclusive use of Lansdowne Park. At line controllers informed Sprague the 1945 board would consider his organization's request.

Mayor Stanley Lewis said the board did not want to be the referee as to what football clubs are to operate in Ottawa because "the whole thing is in the hands of the public. Mr. McCaffrey assured him that the Ottawa club would work out its schedules with other local clubs and was not asking for exclusive use of the park."

## Stocks of Wheat Higher at Dec. 14

OTTAWA, Dec. 21.—(CP)—The Dominion Bureau of Statistics reported yesterday stocks of Canadian wheat in store or in transit in North America, Dec. 14, totalled 38,588,587 bushels, compared with 38,548,488 on the corresponding date of last year. This year's total included 32,800,000 bushels in Canadian positions and 5,788,587 bushels in United States positions.

were tied by Dartmouth and Brown.

Perhaps this innovation should be called the "D" for Da Groat and defense. Then the gridiron's great conflict during the next few years could give the fans, the D-T.

### President Young People Must Take on Responsibility

Premier Ernest Manning told members of the Junior Chamber of Commerce at a dinner meeting Wednesday evening in the Macdonald hotel that responsibility of the future government of this country will fall on the shoulders of the young people of today, and they must join hands, put their shoulders to the wheel and realize their duties of citizenship.

In Mr. Manning's talk, the subject of which was "Some Aspects of Government," he outlined two types of government, the legislative and administrative aspects, and outlined phases of attaining public funds.

The legislative and administrative aspects of government are distinct and apart. The administration is carried on by a cabinet, not a legislative body. People don't understand that members of the cabinet cannot do anything which is not provided for by legislation. The cabinet must answer at least once a year to the legislative assembly.

In Mr. Manning's talk, the subject of which was "Some Aspects of Government," he outlined two types of government, the legislative and administrative aspects, and outlined phases of attaining public funds.

### I Saw today

Present restrictions on Alberta domestic stock and coal shipments to Ontario are to be lifted, and existing subventions on coal transportation east will be allowed immediately, it was learned Thursday from Ottawa.

Lifting the embargo on the two types of coal hauled by government officials and coal operators, who viewed the move as a first step toward assurance of adequate markets for Alberta coal in the post-war period.

The restrictions have been in effect for approximately 18 months, during which time coal mined in this province has been limited in sale to the prairie provinces, British Columbia, and the state of Washington.

They were implemented at the time of a severe coal shortage in the west, and were kept in effect until local markets could ease the shortage.

### Liquor Permits Sold in IOOF Hall

Liquor permits for 1945 are on sale this year in the 100 level IOOF hall, and will not be sold in the liquor vendor's premises on 100 street. A. King, chairman, the Alberta Liquor Control Board, announced Thursday.

Hours of permit sale for the temporary permit office are from 10 a.m. to 6 p.m. and the arrangement will be kept in effect until the end of the year.

The plan to issue new permits from other premises also is being tried in Calgary, Mr. King said. It is in the nature of an experiment designed to ease congestion at liquor vendor's establishments, already taxed nearly to the limit by persons purchasing their Christmas allowances of liquor and beer.

### The Inquiring Reporter

THE QUESTION  
Prime Minister Churchill this week promised that men serving in India and Burma would shortly have an increase in beer and cigarette rations, and in addition receive more social and entertainment allowances. There are Edmonton men serving in those areas. What do you think of the idea?

THE ANSWERS  
LAC, LYLE LITTLE, RCAI: "Sounds like a good idea to me. The entertainment angle will be particularly welcomed by the men in these outposts and with sufficient planning and cooperation from the entertainment world, there is no reason why the plan wouldn't be a big success."

DONALD TURNER, businessman: "According to reports we read of Hollywood stars visiting American troops in the South Pacific, the idea has been going over big for a long time now with G.I. British troops would certainly be just as happy to see some good-looking white women for a change. I think it's a good idea."

ART FRASER, clerk: "I think everything possible should be done to ease the fighting men in every front that they are not being forgotten by people back home, and if this suggestion of Mr. Churchill's will do the trick, I'm all in favor of it."

T. R. ROBERTSON, clerk: "More power to the prime minister. A few ideas like that and conditions of men fighting in the Far East would improve a lot—and those boys have lots coming to them. It means that people on the home front get less cigarettes so the men in uniform get more, so much the better."

### Home on Leave Rotary Boxes Will Be Given Needy Mothers

One hundred and three Edmonton homes which otherwise Christmas would bring little in the way of the "extras" that delight the hearts of children, will be brightened next year by the annual Christmas Cheer campaign to be distributed by the Edmonton Rotary Club.

The homes to which the Rotary boxes are those of widowed mothers whose only income is the meagre amount they receive under the Mother's Allowance, and who take part in the campaign for the necessities of life.

The social collection was made at Thursday's meeting and packing started at 2 p.m. Delivery will start at 1 p.m. on Friday.

OTTAWA, Dec. 21.—(CP)—Works Minister Fourier, who represents the Quebec constituency of Hull in the Commons, said today he would seek re-election at the next federal general election and that there was no basis for recent reports that he would soon be appointed to the bench.
